New York, NY 10022

Dear Dr. Stone:

In view of anticarcinogenic properties of antioxidants, I should assume that your organization would be interested in supporting the 4th International Congress on Oxygen Radicals with \$3,500.

My budgetary requirements are of the order of \$70,000 in order to support the travel expenses of the invited speakers (6 plenary sessions), and the expenses associated with the renting of the LaJolla facilities, advertising, preparation of manuscripts for publishing a book (Plenum's Life Sciences Series), etc.

Please make check payable to 4-ICOR should you decide to support us.

I enjoyed our phone conversation and look forward to a positive response from you.

Sincerely yours,

Michael G. Simic
